

3b

BIOGAS PLANTS

Role: Principal Contractor **Client: Private**

3b construction was appointed as Principal Contractor for the delivery of a number of biogas plant developments across the UK, supporting the growth of sustainable energy infrastructure.

The projects included the construction of specialist process facilities and associated infrastructure, with works comprising earthworks, reinforced concrete structures, structural steelwork, and extensive civil engineering works. Delivered through our integrated in-house construction capabilities, each development was completed to the highest standards of quality, safety, and programme performance, demonstrating 3b construction's expertise in delivering complex industrial and renewable energy projects.
