

3b

GATHER BISTRO

Role: Principal Contractor **Client: GG's Yard**

3b construction successfully delivered the "Gather" Bistro, a sister project to Laggan Wedding Venue at GG's Yard, which was also completed by 3b in 2017.

The new bistro was completed ahead of the proposed programme and provides a welcoming destination where friends, family, locals and visitors can enjoy exceptional food, hospitality, and stunning views across the Solway Coast.

Working closely with the client, the 3b team developed the initial concepts into a fully detailed design solution, which was delivered and installed by our skilled in-house tradespeople. The finished building combines contemporary design with quality craftsmanship, featuring expansive glazed frontage that maximises the coastal views and creates a unique dining experience.

The project showcases 3b construction's ability to transform client visions into high-quality, bespoke developments delivered efficiently and to the highest standards.
