

3b

HEBRIDEAN SEAWEED COMPANY

Role: Principal Contractor **Client: Heb Seaweed**

3b construction was appointed under a Design & Build contract for the delivery of a new food-grade processing facility for Hebridean Seaweed Company on the Isle of Lewis.

The £7 million development provides a modern, purpose-built processing facility designed to support the continued growth of Great Britain's largest industrial seaweed processor. Constructed to the highest food industry standards, the facility incorporates specialist production environments, enabling the efficient processing of high-quality seaweed products while meeting stringent hygiene and operational requirements.

Delivered through 3b construction's integrated design and construction approach, the project provides increased production capacity to meet growing market demand and demonstrates our expertise in delivering complex industrial and food manufacturing facilities to the highest standards of quality, safety, and programme performance.
