MILLENNIUM CENTRE

Role: Principal Contractor **Client: Millennium Centre Community Trust**

As Principal Contractor, 3b construction led the redevelopment of the Millennium Centre, delivering a new community and business hub in the heart of Stranraer.

The project involved the refurbishment and transformation of an existing building to create a modern multi-purpose facility incorporating a theatre, recording studio, gymnasium, offices, bar, café, and commercial kitchen. A key element of the project was the successful delivery of a complex mechanical and electrical package by 3b's in-house M&E division, ensuring the facility was equipped to meet the diverse needs of the local community.
