WINDYMAINS SAWMILL

Role: Principal Contractor **Client: Windymains Timber Ltd**

3b construction was appointed as Principal Contractor for the delivery of major expansion works at Windymains Sawmill.

Delivered within a live operational sawmill environment, the project included extensive reinforced concrete works, precast concrete installation, new structural steel buildings, complete machinery installation, and high and low voltage electrical works. Through careful planning and coordination, 3b successfully delivered the project while minimising disruption to ongoing operations, demonstrating our expertise in delivering complex industrial developments safely, efficiently, and to the highest standards
